Sustainable, Survivable, Smart | Transportation for the Next Generations

Transportation is the lifeblood of our state and we can move forward together for multimodal, transit, and active transportation. The Center for Latino Progress's Transport Hartford Academy is organizing the second annual 2019 Multimodal and Transit Summit in collaboration with the CT DOT, Go New Haven Go, City of New Haven, the New Haven Coalition for Active Transportation, and many partners across the state. We need your support to send a clear message that multimodal transportation and transit are critical for an economically vibrant and sustainable Connecticut.

The Multimodal and Transit Summit will be held on Monday, November 25th at Yale University. The Summit will run from 11:00 am to 7:30 pm to reach transportation professionals, while also reaching non-professionals that we need to keep informed and engaged to move multimodal topics into daily conversations, policy changes, and state legislation. Multimodal transportation is about building connections and increasing mobility while preserving a world to pass on to future generations. In our second year, we will build even more connections across topics and audiences at this unique summit.

The Summit brings together local leaders, state legislators, transportation professionals, planners, engineers, construction firms, developers, and passionate citizen advocates to discuss the current state, known challenges, and the best future for our state's transportation system. The Summit includes both APA and ITE professional development credits to keep planning and engineering professionals well informed and certified.

Please review the available sponsorship levels. We look forward to your support. You can contact Anthony Cherolis or Laura Suroviak with any questions or ideas you might have. Sponsorships are designated on a first come, first served basis. Sponsorships can be paid online or invoiced.
