ESSENTIAL MULTIMODAL TRANSPORTATION | WE'RE BUILDING A RECOVERY

The Transport Hartford Academy is organizing the third annual 2020 Northeast Multimodal and Transit Summit in collaboration with the many partners across the state and Northeast region. We need your support to send a clear message that multimodal transportation and transit are critical for creating jobs across an economically vibrant, connected, and sustainable region.

IMPORTANT UPDATE – Most of the summit including the keynote speaker session and breakout sessions will now be online. There will be outdoor, in-person walk and bicycle audits and a New Haven “Quick Build” bike tour. Those in-person events will be announced a month before the summit.

The Summit will be held on Monday, November 23rd from 11:00 am to 7:30 pm to reach transportation professionals, while also reaching non-professionals that we need to keep informed and engaged to move multimodal topics into daily conversations. Multimodal transportation is about building a strong recovery with sustainable, green mobility. In this third year, mired in a post pandemic recession, smart infrastructure investments and our collective response to a climate emergency is increasingly important.

The Summit brings together local leaders, state legislators, transportation professionals, planners, engineers, construction firms, developers, researchers, teachers, and passionate citizen advocates to discuss the state’s transportation systems and land use. The Summit includes both APA and ITE professional development credits to keep planning and engineering professionals well informed and certified.

Donations in support of the 2020 Summit will be matched 100% by Sustainable CT. Sponsorships [can be paid online](#) or invoiced. If you have any questions or ideas for the Summit, please reach out.
